

Fairhaven Park

The Existing Site

The amenity space, located in Birch Green, services the Fairlie, Fairhaven, Fairstead and Fairburn estates, providing key pedestrian and cycle linkages to the wider area as well as a skate park, multi-use games area and play park.

Fairhaven Park Phase 1

In order to improve the existing site the following suggested landscape and biodiversity improvements could be delivered as part of our overall strategy;

- Wildflower Meadow
- Seasonal bulb planting
- Native hedge species to create biodiversity, providing natural habitats
- Habitat improvements to improve hedgehog and wildlife corridor

Existing Underpass

New graffiti artwork to underpass with improved lighting to create a safer walking environment.

Existing Underpass

New urban tree planting

New access road to Fairlie, the new housing development.

Existing MUGA

Existing MUGA to be improved with games white lining for multisports.

Existing MUGA

Fence, surface and existing equipment to be cleaned and painted.

Existing Skate Park

New graffiti artwork on Skatepark.

New Tables and Benches

New Tables and Benches

Wildlife habitat to be improved with the provision of hedgehog boxes and bird boxes positioned around the site under the supervision of our ecologist.

3.16 Acres (Area of Improvement)

Enhancement of existing urban trees to create landscape structure and wildlife habitats.

Boundary along Birch Green Road to create new grass/landscaped mound barrier to improve highway safety.

New benches across the site

Enhancement of the natural grassland

Retaining walls to be replaced around play area and existing surfaces cleaned and repaired

Existing play equipment to be repainted and improved with flooring upgraded. Potentially some equipment to be replaced.

New bins across the site

New graffiti artwork to underpass with improved lighting to create a safer walking environment.

New bench seating

Existing Retaining Wall

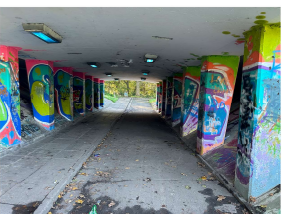

Existing Playground Flooring

Existing Play Area

New Bins

Fairhaven Park

Phase 2 Improvements

If the feedback is positive the organisations involved in the project will recruit volunteers to help improve the Park. Volunteers will be involved in improving the Park and we plan to do the work just after the summer holidays in September. The works should take two-three weeks. The charity, Volunteer it Yourself will be recruiting the volunteers who will be helped by mentors. If you wish to be involved, please let the team know.
